

A+ ORALS

This unique course is designed specifically for the oral assignments students are required to present in many subjects. Students will learn the skills, strategies and techniques that will allow them to make the most of any speaking opportunity.

THREE-SESSION PROGRAM

- Speech writing
- Effective preparation
- Styles of speech
(informative, narrative and persuasive)
 - Effective storytelling
- Persuasive principles in speaking
 - Impromptu speaking skills
- Providing supportive evaluation
- Presenting and receiving personal feedback

PAST PARTICIPANTS SAID

“The course made me feel more confident for all my oral presentations.”

“It was like a tutorial focused just on orals.”

“It’s the first time I’ve felt really prepared for speaking to my class.”

“I found the impromptu speaking hints really useful – for all sorts of occasions!”

“It was great to get personal feedback from teachers with so much experience in this area.”

“Now I have the confidence not to just stand up and read my notes.”

WHO SHOULD ATTEND

This program is designed around the most typical presentations faced by students in years 9 to 12 in meeting the requirements of the curriculum (including the new QCE syllabus starting 2019).

WHY YOU SHOULD BOOK

Adrian Pauley and Kevin Ryan have been teaching students how to achieve higher marks in their oral assessments for 30 years. Aware of the demands on students’ time, they have distilled the key principles into this three-session program.

Students receive a comprehensive workbook that will also serve as a valuable resource for future orals.
