

VILLANOVA COLLEGE SPORT SELECTION POLICY

Villanova College will hold AIC selection trials for all registered players. All interested students are welcomed to register and trial in their chosen sport/s.

Selection trials will incorporate individual skill sessions and internal game play. Following the selection trials and pre-season games, team selections for the AIC Competition will be confirmed via the Parent Lounge and Student Cafe prior to Round 1.

Selection into AIC teams is based on a number of factors: attendance at training and games, skill level, experience, knowledge, physical ability, attitude, team combinations, position awareness, communication and performance. Throughout the trial process and AIC Competition, selections by coaches may vary week to week but in each case, the coaches' selections are final. Genuine requests for feedback on individual performance are welcomed through your coach in the first instance, then your Sport Coordinator or Director of Sport.

Coaches of all teams, excluding the Open Firsts, will attempt to ensure all students receive equal game time in all pre-season and AIC games (where possible). These teams are subject to change at any stage, based on the factors of selection mentioned above.

In Open Firsts, playing time is not guaranteed and is at the discretion of the Head Coach.

A copy of the selection policy will be available to view on The Locker Room page.

Please direct any questions or concerns about the selection process to the Sport Coordinator or Director of Sport.
